Comprehensive CRISPR-Cas9 screen identifies factors which are important for plasmablast development.

A genetic toolkit for studying transposon control in the Drosophila melanogaster ovary.

Fos regulates macrophage infiltration against surrounding tissue resistance by a cortical actin-based mechanism in Drosophila.

Long range PCR-based deep sequencing for haplotype determination in mixed HCMV infections.

Biofilms in Water Hoses of a Meat Processing Environment Harbor Complex Microbial Communities.

Transcriptional dynamics of Chitinophaga sp. strain R-73072-mediated alkannin/shikonin biosynthesis in Lithospermum officinale.

Adaptive laboratory evolution and reverse engineering enhances autotrophic growth in Pichia pastoris.

Tissue-Wide Effects Override Cell-Intrinsic Gene Function in Radial Neuron Migration

Stability in the South, Turbulence Toward the North: Evolutionary History of Auninia saxatilis (Brassicaceae) Revealed by Phylogenomic and Climatic Modelling Data.

Transcriptome-Wide Profiling of RNA Stability.

Endothelial and systemic upregulation of mir-34a-5p fine-tunes senescence in progenitors.

CHD8 haploinsufficiency links autism to transient alterations in excitatory and inhibitory trajectories.

Interferons reshape the 3D conformation and accessibility of macrophage chromatin.

Sperm membrane proteins DCST1 and DCST2 are required for sperm-egg interaction in mice and fish.

The PAX5-JAK2 translocation acts as dual-hit mutation that promotes aggressive B-cell leukemia via nuclear STATS activation.

Embryonic stem cells do not develop to a pluripotent state in the absence of fibroblasts.

Tissue-wide effects of interferon-β on chromatin accessibility in Drosophila.

Panoramix SUMOylation on chromatin connects the piRNA pathway to the cellular heterochromatin machinery.

The Kiev Folia: An interdisciplinary approach to unravelling the past of an ancient Slavonic manuscript

Prime editing efficiency and fidelity are enhanced in the absence of mismatch repair.

The life cycle-dependent transcriptional profile of the obligate intracellular amoeba symbiont Amoebophilus asiaticus.

ADAM17 is an Essential Factor for the Infection of Bovine Cells with Porciviruses.

Polygenic routes lead to parallel altitudinal adaptation in Heliosperma pusillum (Caryophyllaceae).

Interaction of Periplasmic Fab Production and Intracellular Redox Balance in Escherichia coli Affects Product Yield.

NMD is required for timely cell fate transitions by fine-tuning gene expression and regulating translation.

Surviving trees and deadwood moderate changes in soil fungal communities and associated functioning after natural forest disturbance and salvage logging.

Nonredundancy of IL-1α and IL-1β is defined by distinct regulation of tissues orchestrating resistance versus tolerance to infection.

Kynurenine importation by SLCTA11 propagates anti-ferroptotic signaling.

Pool-GWAS on reproductive dormancy in Drosophila simulans suggests a polygenic architecture.

Discovery of an unusually high number of de novo mutations in sperm of older men using duplex sequencing.

TOPLESS promotes plant immunity by repressing auxin signaling and is targeted by the fungal effector Naked1.

Interferon γ induces EGR1 expression in murine macrophages.

Nonredundancy of IL-1α and IL-1β is defined by distinct regulation of tissues orchestrating resistance versus tolerance to infection.

Kynurenine importation by SLCTA11 propagates anti-ferroptotic signaling.

Composite CRISPR-Cas9 screen identifies factors which are important for plasmablast development.

A genetic toolkit for studying transposon control in the Drosophila melanogaster ovary.

Fos regulates macrophage infiltration against surrounding tissue resistance by a cortical actin-based mechanism in Drosophila.

Long range PCR-based deep sequencing for haplotype determination in mixed HCMV infections.

Biofilms in Water Hoses of a Meat Processing Environment Harbor Complex Microbial Communities.

Transcriptional dynamics of Chitinophaga sp. strain R-73072-mediated alkannin/shikonin biosynthesis in Lithospermum officinale.
